**Subject:** RE: Follow Up 06/24 Meeting

Lauren,

Here are some CO service cost estimates:

1. 1 MW annual service agreement with oil and filter, fuel filter and fuel analysis \$2,750 (2 men)
2. 1 MW, 2-hour, NFPA 110 load bank test \$2,000
3. 2 MW annual service agreement with oil and filter, fuel filter and fuel analysis \$2,850 (2 men)
4. 2 MW, annual 2-hour, NFPA 110 load bank test \$4,250 (2-3 men)

These costs are current and include labor, equipment and materials. No travel or mileage costs are included and would be extra. Also, the cost of fuel for testing is not included.

I hope this is useful; let me know if I can be of any further help.

Kind regards,

**Michael Pope**
